THE ENBLOC

The Thomson Reserve Story

This **mega-development** originated from one of Singapore's most anticipated en bloc sales, with the former Thomson View Condominium acquired for \$810 million by a consortium of UOL Group, CapitaLand Development, and SingLand.

- **Proven Track Record:** This same consortium delivered premium projects like Skye At Holland and Parktown Residences, ensuring quality finishes, efficient layouts, and strong landscaping.
- **Favorable Land Cost:** The \$810 million translates to \$1,178 psf ppr — lower than recent OCR GLS land sales, despite Thomson View's RCR location.
- **Mega-Development Scale:** Spanning 5 hectares with 1,268 units, this rare scale brings extensive facilities, lower maintenance fees, and stronger resale benchmarks from higher transaction volume.
