

LUCERNE
GRAND

The logo for Lucerne Grand, featuring a stylized mountain range icon above the text "LUCERNE" and "GRAND" stacked vertically.

LUCERNE GRAND

- Inspired by the alpine lake town of Lucerne in Switzerland, the name LUCERNE GRAND reflects the development's "mountain+lake" architectural concept and design intent.
- Elements of distinctive European mountain landscape and architecture are expressed in the exterior of the development, with close proximity to the nearby waterbody, Jurong Lake.
- Paired with "Grand", the name becomes both a hallmark of the City Developments Limited brand and a promise of quality residential living.

LOCATION & AMENITIES

STRATEGIC LOCATION

LUCERNE
GRAND

ARCHITECTURAL DESIGN

The Mountain.
The Lake.
The Home.

Architecture. Landscape. Interior.

Between the urban jungle and the waters of Jurong Lake, a development sculpted by metaphor:

a mountain by the lake — a home grounded in nature, reaching for the sky.

Its jagged silhouette cuts against the skyline like the granite edge of a mountain. It's not just a structure, it's a landmark appearing from the landscape itself.

Beneath these vertical peaks, the landscape unfolds like a lake — still, reflective, serene. The water becomes both mirror and mediator, **softening the ruggedness of the built form.**

The mountain and the lake frames a new idea of home.

TYPE DP1E
133 sq m / 1432 sq ft

SHOWUNIT TYPE

- Flexspace for Entertainment Room
- Large kitchen
- Dining with storage and display
- Master Bedroom with his and hers walk-in wardrobe
- Purchasers have option to opt-in/out of Entertainment Room wall for a limited period

Achieved **BCA's Green Mark Platinum Super Low Energy (SLE) Building Certification**

For Air-Conditioning

Energy-Efficient Design

- Good natural ventilation in common areas and residential units
- Building facade designed to reduce solar heat gain
- Units with recessed balconies/horizontal ledges, which provide shade for the interiors

Environmental Quality and Protection

- Use of environmentally friendly and sustainable materials
- Landscape and water features at the podium reduce urban heat build-up at public area.

Energy-Efficient Features

- Energy-efficient air-conditioning system for all residential units
- Energy-efficient lighting design with use of LED lighting/motion sensors at common areas

Other Smart Features

- Smart home with smart community system for residents' comfort and convenience
- EV charging stations to reduce carbon footprint and emissions.
